

1, Explain behaviour of hub device

- It is use to connect multiple network device
- It is a layer-1 device
- It is a broadcast device

2, Explain behaviour of switch device

- It is use to connect multiple network device
- It is a layer-2 device
- It is a Broadcast device
- It is contain mac Table
- It ^{will} act as Broadcast to unicast

3, Explain behaviour of router device

- It is Break to Broadcast devices
- It is layer-3 devices
- It is unicast devices
- It is contain to Routing table
- Routing table contain list of Route
- It is use to be connect different network
